PROJECT DATA ENTRY FOR
PMT MOUNTING SYSTEMS

CUSTOMER INFORMATION

Company	_____	Contact person	_____
Address	_____	Phone	_____
	_____	Mobile	_____
	_____	Fax	_____
	_____	E-Mail	_____

PROJECT AND LOCATION DATA

Project name	_____		
Project segment	_____		
Address	_____	Altitude above sea level (m)	_____
	_____	Snow load (kN/m ²)	_____
	_____	Wind load (m/s)	_____
	_____	Gust dynamic pressure q _p (kN/m ²)	_____
Location web link (e.g. Google Maps)	_____		

PHOTOVOLTAICS

Module type	_____		
Module dimensions (mm)	_____ × _____ × _____	Module weight (kg)	_____
Module data sheet attached	_____	Module output (Wp)	_____
		Total output PV (kWp)	_____
Mounting system	_____		
	System	Alignment	Angle of inc.

SCHEDULING / DELIVERY

Offer deadline	_____	Assembly date	_____
Supply address	_____	Completion date	_____
	_____	Unloading tools on site (e.g. forklift, crane)	_____
	_____	Costs arising from missing unloading tools will be charged to the customer.	

ROOF DETAILS

Roof condition	Structural condition	Age (Years)
Building data	Length (m)	Height (m)
	Width (m)	
	Technical sketch / image of the building attached	
	Alignment (°)	Roof pitch (°)
	Maximum extra load according to building statics (kg/m ²)	
Attica details	Height (m)	Width (m)
	no attica	
Roof covering	Roofing	
	Maker / Type	
	Material	Thickness (mm)
	Age (Years)	Compressive strength (kN/m ²)
	Comment	
Top layer	Substrate	Mounting instructions
	Thickness (mm)	Concentration (kg/m ³)
Insulation	Manufacturer	Thickness (mm)
	Type	Compressive strength (kN/m ²)
Friction	Coefficient of static friction μ H	

SUPPLIES

Cable channel cover	Distance gauge	PMT lightning protection

FURTHER DETAILS / VALIDITY CLARIFICATION

Attention:

If compressive strength data of roof covering and insulation plus maximum extra load according to building statics is incorrect or missing, Premium Mounting Technologies GmbH & Co. KG can not assume responsibility.

Hereby I confirm the validity of the provided data.
